1. INTRODUCTION

Rosebel Gold Mines N.V. (hereinafter referred to as “Rosebel”) requests proposals for Infrastructure Inspection and Maintenance in accordance with the requirements, terms and conditions of this Request for Proposal (RFP). This RFP sets forth the requirements for Contractors.

1.1 Contract description

Infrastructure Inspection and Maintenance of the transmission lines road.

1.2 Nature of the Contract

Unit Rate

1.3 Non-mandatory pre-proposal Site visits

A group site visit will occur on **August 4, 2023 at 9:00am**. All bidders are invited and advised to visit the site before submitting proposals. The purpose of this visit is to assist the bidders in the full understanding of the RFP.

- Assembly point: Maingate Rosebel mine site
- Host: Karel Abinie, mobile: +597 8184020
- PPE Mandatory
- Vehicles must be mine compliant
- Max two persons per Contractor

Names, ID and vehicle # must be sent to crifta_faerber-gomes@rosebel.com latest August 2, 2023 at 2:00pm, for participation in the site visit.

1.4 Contract duration

September 15, 2023 through August 14, 2025

1.5 Deadline for Proposals

Proposals must be submitted on or before **02:00pm, August 24, 2023**, via email to the address below with subject line: **Infrastructure Inspection and Maintenance**.

Name: Crifta Faerber-Gomes
Title: Senior Specialist Category Management
E-mail: crifta_faerber-gomes@rosebel.com

Any bids submitted after the deadline will be rejected.

1.6 Questions and Clarifications

Requests for information related to this RFP should be addressed via below e-mail no later than **02:00pm, August 11, 2023**.

Name: Crifta Faerber-Gomes
Title: Senior Specialist Category Management
E-mail: crifta_faerber-gomes@rosebel.com

All answers will be provided via e-mail and all questions and answers will be shared with all bidders. The source of each question will be held in confidence.

1.7 Submission of Bids

The bidder shall submit two documents clearly showing heading “Infrastructure Inspection and Maintenance - Technical Offer” and “Infrastructure Inspection and Maintenance - Financial Offer”.

Documents submittal checklist

Technical Offer

The technical offer should meet all technical requirements.

- Introductory letter
- Relevant technical qualifications, approach & ability including Safe Work Plan (SWP)
- Experience - list of similar projects successfully executed over the past 5 years including references
- Relevant certification documents
- HSE performance
- Policies and Procedures

Financial Offer

Appendix F - “Bill of Quantities” must be completed and submitted in excel format

Prices shall be in USD and shall be fixed for the duration of the contract.

1.8 Evaluation Criteria

Selection criteria are based on a 100-point evaluation.

Criteria	Points on 100 point basis
Introductory Letter, Technical Qualifications, SWP, Approach & Ability	15 points
Experience - list of similar projects successfully executed over the past 5 years including references	20 points
Relevant certification, HSE Performance, HSE Policies and Procedures	20 points
Cost proposal	40 points
Responsiveness of the bidder	5 points

1.9 Changes to Proposals

The proposal submitted is irrevocable by the bidder. Bidders will not be permitted to alter their proposals once they have been submitted.

1.10 Proposal Validity

Proposals are required to be valid for (60) days.

1.11 Liability for Costs, Expenses and Information

Rosebel will not be liable for any costs or expenses incurred by any bidder including, without limitation, any expenses incurred in the preparation and submission of the proposal.

Rosebel do not make any representation or give any warranty as to the accuracy, currency, or completeness of the information provided in this RFP. Rosebel accept no liability for any error, omission, or misleading information contained herein.

1.12 Alternative Proposals

Bidders are encouraged to propose alternative proposals for consideration by Rosebel. Alternate proposals that the bidder feels may offer additional advantages to Rosebel must be submitted at the same time as the main proposal. They should be prioritised, and the benefits of each alternative proposal must be clearly stated.

Rosebel reserve the right to accept or reject proposed alternatives as it sees fit, and to claim for itself the financial benefit of a substitution. Rejection by Rosebel of the proposed alternatives is final. Rosebel is not obligated to give any reason for its rejection of alternative proposals.

1.13 Right to Clarify and Negotiate

Rosebel without liability, cost, or penalty may in its sole discretion and at any time after proposal submission may seek clarification from the bidder or negotiate items relating to the proposal.

Rosebel may request bidder to confirm in writing any statement made by the bidder in relation to the clarification or negotiation.

Any written information received by Rosebel in response to a clarification or negotiation will be considered an integral part of the bidder's proposal.

1.14 Award of Contract

Contract will be awarded to the lowest priced, technically qualified bidder. Rosebel reserves the right to accept or reject any or all bids at any time prior to awarding a contract.

1.15 RFP Schedule of events

Date	Event

APPENDIX B - SCOPE OF SERVICES

Infrastructure Inspection and Maintenance

SCOPE OF SERVICES

Safety Reference

This job should be performed keeping all safety regulation and standard in mind at all times. Safety reference or information can be found in the following:

- OSHA 29 CFR, 1910.269 Electric Power Generation, Transmission, and Distribution
- NFPA 70E
- RGM ISO 18001 - Occupational Health & Safety program
- RGM Procedure: Performing Work Safely Around Electrical Equipment and or Installation (this procedure is still under review & revision)
- Keep damage to the environment at a minimum, as described in IAMGOLD ISO 14001 Environmental management program. (This program should minimize adverse impacts on the environment).

Remember to treat all electrical power lines with respect by keeping a safe distance away from them and report all issues to RGM Mill Electrical Department.

Specific work

Contractor to inspect and maintain the Infrastructure (road) from Afobaka to RGM for the 161kV Transmission Line, yearly starting in 2020. Approximate length of powerline is 35KM. They should ensure the existing road is inspected, maintained and accessible at all times. The road should be kept in good condition at all times in order to perform Regular Electrical Inspection on the Tower, base & Lines and also in case of a Failure Repair.

- Standard Task - Safely performance of the Following task.
 - Repair of the roads
 - Repair of bridge or culvert creeks crossing the road
 - Schedule inspection to be done regularly specifically in the rainy season for detection of repairs and maintenance
 - Maintenance of roads, bridge and culverts
 - Repair Ground around the Tower Base due to erosion, to avoid fall of any Towers.

Road Repair includes:

- Excavations of bad, soft spots, which is one of the initial steps, prior to filling with new material.
- Filling of excavated spots with base course material, such as blasted rock or in situ material.
- Surface layer placement and profiling of the surface can be done by using nearby laterite source as borrow material or blasted pit rock.
- Compaction of the different layers for stabilization and sealing.
- Drainage ditch along the road should be maintained to eliminate ground saturation.

Drainage control includes:

- Ditch maintenance is very important.
- Placement of HDPE black pipes or culverts for draining water under the road
- Berm cuts along the road to prevent ponding of water on the road surface.
- Crowning or crossfall road surface to drain water in the preferable direction. This will prevent construction of a flat road surface.
- Drainage along the ramp slope of a hill should be accompanied with blasted rock in the ditch along the ramp.

Responsible department

The Next Department support are require to set a procedure and ensure all standard is followed:

- Engineering Department
- Environmental Department
- General Service
- Mill Electrical

Facilities to be provided by RGM

- Assistant and instruction regarding Safety around the Electrical Towers & underneath the 161kV line if require.

Facilities to be provided by Contractor

- Manpower
- Toosls, Equipment, Transportation and Fuel
- All PPE

MONITORING REPORTING

Monthly progress report will be submitted on all activities.

IMAGE POWER LINE

APPENDIX C: HEALTH, SAFETY AND SUSTAINABILITY POLICY

Health, Safety and Sustainability Policy

Rosebel Gold Mines N.V. (RGM) operates a large-scale open pit gold mine located in the tropical rainforest of Suriname.

RGM's management, employees, contractors, and stakeholders are committed to implementing Zijin Mining's vision by striving to achieve "zero work fatality and zero occupational diseases" and maintain a high degree of harmony and unity among the environment, the society, and attainment of economic values.

This commitment will be integrated into all activities related to and undertaken by our operation.

We will operate in accordance with our commitment and:

- Comply with applicable regulatory requirements on Occupational Health & Safety and Environmental protection-related laws, regulations, and standards to maintain a compliant operation.
- Set targets for ecological environment conservation, health, and safety performance to ensure continuous improvement in our operations.
- Conduct our business with high importance to conserve biodiversity and ecological systems, use sustainable resources, avoid pollution, and improve waste management;
- Minimize the exposure of employees, contractors, and visitors to health and safety risks by identifying and assessing hazards and formulating and implementing effective responses to emergencies and crises.
- Transparent communication and engagement with internal and external stakeholders in respect of the Company's policies on health, safety, and Environmental management and its performance, and openly disclose it to the public throughout the life cycle of our operations.
- Engage in frequent dialogue and collaborative work on environmental concerns with local and international industrial organizations, institutions of higher learning, and other external stakeholders to support the company's sustainable development.
- To establish effective communication and negotiation mechanisms with the Company's internal and external stakeholders regarding Health, Safety, and Environmental issues.
- Provide regular training on all significant risk controls, ecological and environmental protection for all employees, and effective communication to ensure that our employees and contractors can fulfill their Health & Safety responsibilities.
- All employees and contractors shall be responsible for their own safety and the safety of those around them and shall participate in activities that can reduce operational risks. They shall have the right to intervene whenever the work conditions are unsafe.
